

Desktop angel

- 1) Print angel onto paper or thin card.
- 2) Cut out angel and wing sections
- 3) Cut along red line from A to the black dot.
- 4) Glue head first - stick tab B under edge C
- 5) Then, glue body tab D - stick tab underneath edge E, aligning the edges at the base to form a cone.
- 6) Tuck wing centre inside top of body cone. Slide wings into slits on each side of cone, matching red dotted lines with slits.
- 7) Bend wings back slightly along fold lines.
